

## 525DM - Microwave and Infrared Digital Motion Detector

### Features

- Digital microwave / Infrared detection
- Anti-mask feature allows for the detection of close proximity movements (less than 0.75m / 2.5ft) within the detector range
- Adjustable microwave range
- 14m (45ft) X 14m (45ft); 90° viewing angle

### SPECIFICATION

Brand	PARADOX
Motion Detector Type	PIR + Microwave
PIR Sensor Element Type	Dual Elements
Frequency	FCC & DOC - 10.525 GHZ (other frequencies available)
Voltage	10 - 16VDC
Current Consumption	30mA (approximately)
Operating Temperature	-20° to +50°C (-4° to +122°F)
Alarm Period	4 seconds
Detection Speed	0.2m to 3.5m/s (0.6ft to 11.5ft/s)
